## The 3rd-Annual Los Angeles Archives Bazaar

Southern California history comes alive in exhibits by 65 historical collections and archives—including L.A.-area universities, libraries, and community organizations. Browse rare collections, consult with experts, and learn about family genealogy, online research tools, preserving your own history, and numerous other topics. Presented by L.A. as Subject, the bazaar offers a wealth of resources for exploring Los Angeles history. L.A. as Subject—an association of archives and collections hosted by the USC Libraries—is dedicated to improving the visibility, access, and preservation of archives and documenting the rich history of the Los Angeles region. Educational programs, discussions about history with local authors, and documentary films about the hidden stories of Los Angeles neighborhoods are scheduled throughout the day.
